ABOUT ME

Motivated and detail-oriented software developer with hands-on experience in building web applications using Node.js, Python, React, and modern backend technologies. With foundation in Object-Oriented Programming, databases, data structures, and software development principles. Passionate about developing scalable, efficient, and user-focused solutions while continuously learning new technologies. Possesses strong problem-solving, teamwork, and communication skills, with the ability to adapt quickly in collaborative and fast-paced environments.

SKILLS

Programming Languages: Python, C, Java, JavaScript

Web Technologies: HTML, CSS, React, Node.js, Django, FastAPI

Database: SQL, MySQL, MongoDB, PostgreSQL, SQLite, MariaDB

Tools & IDEs: Git, VS Code, Eclipse, NetBeans, PyCharm, Jupyter Notebook, Google Colab, Docker, Postman

Operating Systems: Windows, Linux

Concepts: Object Oriented Programming(OOPS), Data Structures, Software Development, Machine Learning, Deep Learning

Other Skills: Team Collaboration, Adaptability, Time Management, Communication Skills, Leadership

PROJECTS

Academic Project Monitoring System

It is a web based platform where academic project progress can be evaluated and monitored in an Academic workflow, built using React, Fast API, PostgreSQL and Node.js.

Horizon Weather

Build a weather prediction app as the part of NASA Space App challenge

Personalized Study planner

AI-powered personalized study planner that analyzes uploaded materials and user performance to generate adaptive timetables and topic recommendations. Uses recommendation algorithms for personalized recommendations. Built on React on frontend and Django on backend with PostgreSQL as database.

Car Dealer Website

Built a car dealer website where you can sell or buy used cars along with its accessories using technologies like Django and PostgreSQL.

CERTIFICATIONS

Deep Learning-IIT Ropar/NPTEL
Website Designing Bootcamp/Kodacy
NASA Space App Challenge
Event Coordinator in ASTRA 10.0
Essential Computer Skills: Mastering Office Tools and IT Fundamentals
The Essentials of Object Oriented Programming
React.js

EDUCATION

SJCET, Palai	MCA 2024 - 2026
Currently pursuing Master's degree with a strong interest in web development.	CGPA-7.88
BVM Holy Cross College, Cherpunkal	BCA 2021 – 2024
Completed Graduation from a MG-University with knowledge about Computers and in developing a website by own.	CGPA-7.05
